### **Construction of Baeker Secondary School at Beaker Town in Setit Humera**

This is the first Newsletter of the proceedings regarding the Construction of Baeker Secondary School at Beaker Town in Setit Humera, Ethiopia.

More than a year ago, the 500 farmers of the Shewit farmer's cooperation in Baeker town in north-west Ethiopia and SeletHulling PLC agreed to jointly construct and finance schooling facilities for the farmer's children grade 9 and 10. Plans have been made, many meetings were held and with the cooperation of the Tigray Development Association a joint bank account was established to finance the plans. The Shewit farmer's cooperation and SeletHulling PLC initially paid into the account at the Commercial Bank of Ethiopia at Humera ETB 200,000 and USD 15,000 respectively, as the idea is that both parties will finance the school and the equipment on a 50-50 basis.

The construction tender was launched in December 2011, the contract with “Alula Construction Cooperative” has been concluded in January 2012 as the construction has commenced in February. The pictures above show the progress at the end of February. The foundation has been completed and pouring of the reinforced concrete pillars has started.

In the next Newsletter we will report more progress regarding the school project in Humera.
